DETAILED ACTION

Allowable Subject Matter

1. Claims 26-48 and 71-93 are allowed.
2. The following is an examiner's statement of reasons for allowance: With respect to claim 26, the prior art does not disclose a system in which a gun with a barrel has a laser weapon disposed in the barrel, and having an antenna. While Class 42, subclass 116 discloses many prior art references in which a barrel includes a laser cartridge disposed in a barrel, none of the laser cartridges included at least one antenna. With respect to claim 71, the prior art does not appear to disclose a sensor disposed in a hollow elongated member with a laser weapon cartridge that is capable of firing automatically in response to data gathered by the sensor. Moreover, with respect to both independent claims, no prior art reference (including those appearing in applicant's IDS statement) discloses a laser weapon in the form of a cartridge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
